SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

JULY, 1930

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

PERMITTED DIP FOR SCABIES OF CATTLE AND SHEEP

Permission was granted the National Chemical Co. of California, San Francisco, Calif., on March 30, 1927, to use "Flag Brand" lime-sulphur solution in official dipping of cattle and sheep for scabies. Owing to a reduction in the density of this product, the dilutions at which it is now permitted are as follows: 1 gallon of dip to 13 gallons of water for cattle; 1 gallon of dip to 17½ gallons of water for sheep.

These dilutions are to be adopted in all instances instead of the proportions of 1 to 15 and 1 to 20¼ for cattle and sheep respectively as permitted March 30, 1927.
